

Tablet Stands Made from Household Items

Written By: David

TOOLS:

- [Hot glue \(1\)](#)
- [Screwdriver \(1\)](#)

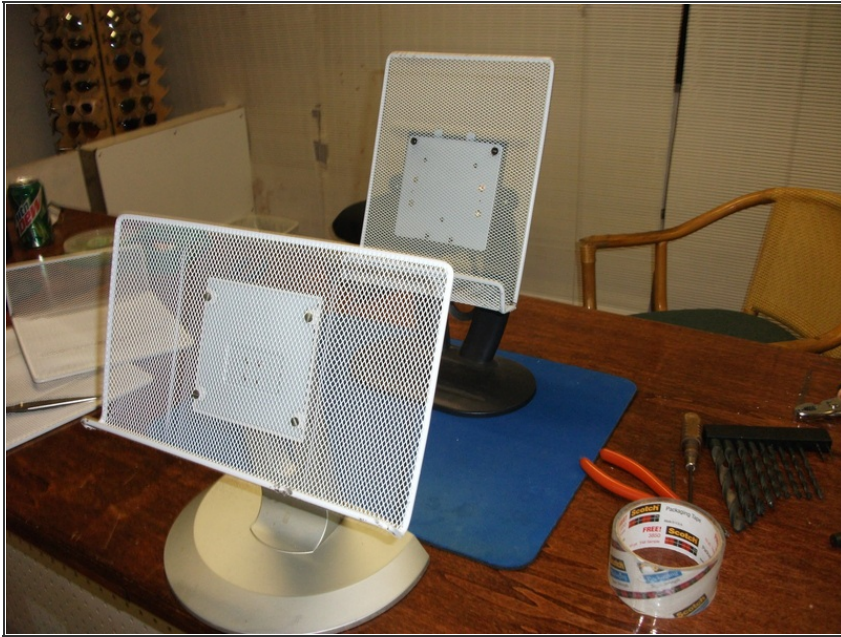

PARTS:

- [Monitor base \(1\)](#)
- [Wire metal shelf \(1\)](#)
- [Screws \(1\)](#)

SUMMARY

I, like others, am tired of looking for temporary fixes for a good tablet stand for our ever-so-popular 10-inch tablets. So I looked around the room and had some old LCD monitor stands and wire shelves left from previous disasters.

Step 1 — Tablet Stands Made from Household Items

- Shelves and monitor base.

Step 2

- Hot glue and some fabric.

Step 3

- Finished and enjoy!

Finished product: an easy-to-use tablet stand.
